

1-Introduction----

AYUSH is a multiple system of Alternative medicine based on the principle of 'treating the patients and the diseases and take into account a range physical, mental and life style factors in patients for the selection of medicine. Hence, Ayurved, Unani, Siddh and Homoeopathy made for individualized treatment. AYUSH medicines stimulate the body's own defense system and allow the body to heal itself. Such medicines are very safe, gentle and do not have toxic effects. This system was first introduced in Germany and came to India in early nineteenth century has taken root in the country and has gained mass acceptance as official recognition

2- Home- Research Colleague of HEALTH

Research colleague of Homoeopathy is the organization established by the pioneer Graduate Ayush medical graduate of Uttar Pradesh for the research & Homoeopathic Ayush system of medicine is growing fast with government patronage in India, but due to limited infrastructure sources, the reach of the system is limited there is need for sustained and co ordinate efforts both from government and private sectors to exploit the benefits of Homoeopathic system of medicine for the use of needy persons especially for women and children, the vulnerable section of the society. Research colleague of Homoeopathy founded in 2010 and registered under society registration act XXI 1860. FOR the sake of education ,research and development of Homoeopathy in Uttar Pradesh. And all over the country. Homoeopathic system of medicine is cheapest cost & efficacious marvelous system of medicine which covers treatment for all the disease systems. Our team of members are highly respected practitioners from all over the India and they'll be sharing not only experiences with their patients, but also their teaching and philosophy of practice.

]

3-- ORGANISATION BACK GROUND NOTES

1. Research colleague of Health (A YUSH) is faculty of distance education, ,of Indian Red Crescent health care society,
2. 5- Research colleague of Homoeopathy has established Research academy of Homoeopathy to start Homoeopathic research and development in various clinical field and intensive clinical study of various specialities in various system of human body

6-Interactive Cases

As a registered member, you have access to an archive of Video Cases -- presentations that show actual patient footage interspersed with coaching from the practitioner who solved the case. You can study the work of your favorite homeopath online, at your own pace. Through our interactive technology, you can choose the amount of guidance that is comfortable for you. Our interactive Video Cases use professionally edited footage of real patients. Each Video takes you through the entire process of patient intake, analysis, and follow-up. The cases we've chosen meet our own stringent criteria and have also been verified by a third party medical doctor for authenticity.

7-Study at the Side of the Masters -At any time during analysis of the case, one click brings you helpful guidance from the master practitioner who treated the patient. Every Video Case also includes detailed commentary from the treating homeopath, with his or her personal approach to case analysis.

7-Virtual Coaching, Only as You Need It

Our comprehensive coaching feature makes the program customizable for all levels of knowledge. Choose to watch the patient intake with or without practitioner commentary. Or if you like, view it once with, and once without! Within the interactive module, you may opt for virtual coaching at any time, either from a Themes Assistant, or by watching a sight and sound repertorization of the case by the actual practitioner who treated the patient.

9-Multimedia Lectures and Tutorials -In addition to the video cases, we offer a collection of presentations on homeopathic practice, philosophy, and materia medica created by respected teachers. You can view these seminar-quality narrated slideshows at your own pace, and on your own schedule. The presentations are designed either to complement the formal study of homeopathy, or to serve as continuing education for established practitioners.

10--Requirements To Join in order to protect the confidentiality of the patients who have generously allowed video footage of themselves to be used for teaching, registration is required. Research colleague of Health (AYUSH)s open to professional AyUSH, medical professionals, and students currently enrolled in a homeopathy or medical training program.
